Lois and Joanie are incredibly talented actresses and they captivated our students!

Amazing hold on the children's attention.

Able to entertain a large group of young toddlers and pre-schoolers for an extended period of time.

As the educational director, during activities or performances I always observe the children's faces to watch their reactions. Joanie & Lois mesmerized these little kids. They never lost the children's attention. The performance flowed from one story to the next. Our children were so excited to recognize the characters from their favorite story books. Joanie & Lois's theatrics were just right for our 2, 3, and 4 year olds. There was a nice mix of group interaction and participation. We were extremely pleased with their performance!
