To whom it may concern,

Dear Joanie and Lois,

"Wow what an amazing event the final performance turned out to be! You couldn't ask for two more dedicated and caring women to throw such an amazing theater showcase. The weeks of training not only paid off in the end product but were a weekly outlet for the residents who participated. Everyone who was involved really came out of their shell and they really got them involved on a deep level. I strive to make my community here at Flushing House a cutting edge, energetic place for independent seniors to live and have fun. This is the kind of out-of-the box organization that makes us a cut above the rest. I am constantly looking for innovative and top tier programs that will stimulate my residents and set a new standard for senior care. Action racket exceeds this earmark and pushes all those in the audience as well as those involved to think, expand, grow and communicate. Thank you action racket theater! God bless you!"
